EPR Compliance (Extended Producer Responsibility)

This packaging has been assessed in accordance with applicable Extended Producer Responsibility (EPR) regulations. Based on this assessment, Westpack fulfils its obligations for the packaging types for which it is legally responsible. For customer-specific primary packaging, EPR responsibility lies with the customer, while Westpack is responsible for secondary and transport packaging, including reporting to relevant authorities. Compliance is based on available documentation regarding packaging volumes, material types, and applicable reporting requirements.

PPWR Compliance (Regulation (EU) 2025/40)

This packaging has been assessed against the requirements of Regulation (EU) 2025/40 (PPWR). Based on the current review, it is considered to fulfil the relevant environmental and design requirements under Articles 5-12. Compliance is supported by available technical documentation, including material specifications, recyclability assessment, and supplier information, which can be provided upon request. The assessment is based on the material composition of the packaging and applicable recyclability standards. Minor components may have a limited impact on the overall recyclability. Westpack declares that the packaging complies with the heavy metals limit as defined under Article 5 of the PPWR (Pb, Cd, Hg, Cr(VI) ≤ 100 mg/kg), and this statement constitutes a Supplier's Declaration of Conformity for the packaging covered by this document. EU Declaration of Conformity is found in the end of this document.

## European waste management systems DS/EN 13430 V3 2006-10-12 Packaging - Requirements for packaging recoverable by material recycling

|  | Description                                                                                                                                                              | Weight of component as % of total functional unit | If the whole component is accepted for recycling based on national, European, international, commercial standards or specifications, give detailed reference | If the component complies with such standard(s)/ specification(s) fill in line E. -and go to line I. Note 100% must be available for recycling. If not continue from line E. | Intended material stream | Constituents liable to cause problems in collection and sorting | Constituents liable to cause problems in recycling | Constituents liable to have a negative influence in the recycled material | Percentage by weight of component recyclable in theory | Percentage by weight of functional unit recyclable in theory | Total percentage of pack recyclable in theory | Total percentage of pack recyclable in practice |

Product Description

| Component Material | Specification                                                               |
|--------------------|-----------------------------------------------------------------------------|
| Textile bags       | Organic cotton                                                              |
| Plastic bags       | Synthetic, polyester, nylon, or rPET                                        |
| Paper bags         | Paper (recyclable)                                                          |
|                    |                                                                             |
| Primary use        | Packaging for shipping and presentation of jewellery, watches, and eyewear. |

Preventive Measures and Safety Precautions

| Area                  | Measures                                                                                                         |
|-----------------------|------------------------------------------------------------------------------------------------------------------|
| Chemical safety       | Use of REACH-compliant, organic materials. Documentation for all adhesives and colors.                           |
| Fire hazard           | Statutory fire protection measures are applied during storage and use.                                           |
| Mechanical protection | Foam inserts are dimensioned to protect sensitive contents such as watches and glasses from impact and pressure. |
| Marking and tracing   | Batch number, producer information.                                                                              |
| Environmental aspects | Guidance on sorting, product declaration, use of recycled materials.                                             |
| Design                | High aesthetics and functionality, no sharp or rounded corners, no loose parts under normal use.                 |

Applicable Legislation and Standards

| Legislation / Standard   | Requirement / Certification        |
|--------------------------|------------------------------------|
| GPSR (EU) 2023/988       | General Product Safety             |
| REACH (EC) No. 1907/2006 | Restriction of Hazardous Chemicals |
| ISO 14001                | Environmental Certification        |
| FSC                      | FSC Certified                      |

Assessment of Safety and Environmental Risks and Impacts

| Hazard category                                           | Likelihood of occurrence | Degree of severity | Initial risk level | Mitigation measures / Remarks                                                                                                                                                             | Residual risk level |
|-----------------------------------------------------------|--------------------------|--------------------|--------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Chemical exposure</b> (printing inks, adhesives, foam) | Very unlikely            | Moderate           | Low                | All materials are organic and REACH-compliant. Adhesives and colorants are free from harmful solvents and heavy metals.                                                                   | Low                 |
| <b>Mechanical injury</b> (sharp edges, cuts)              | Very unlikely            | Insignificant      | Low                | Bags have edges but not of a sharp nature. Risk of injury during normal use is minimal.                                                                                                   | Low                 |
| <b>Fire hazard</b> (flammability)                         | Very unlikely            | Moderate           | Low                | Paper, fabric, and plastic are combustible. Storage away from heat sources is recommended. Use of flame-retardant foam can be considered for specific needs.                              | Low                 |
| <b>Choking hazard</b> (small loose foam parts)            | Very unlikely            | Critical           | Moderate           | Not relevant for adult use. No loose or removable parts. Warning labels may be applied as an additional precaution (see data sheet).                                                      | Low                 |
| <b>Environmental risk</b> (waste, material handling)      | Unlikely                 | Moderate           | Low                | Bags are handled according to their material composition. Guidance on waste sorting is provided in the product declaration. Environmental labeling and user instructions are recommended. | Low                 |
| <b>Collapse or deformation</b>                            | Very unlikely            | Insignificant      | Low                | Construction is stable and weight is very low. The risk is eliminated.                                                                                                                    | Low                 |

Conclusion

The risk assessment documents that the bags are safe, sustainable, and chemically sound in accordance with GPSR and REACH when used by adults for transporting and storing jewellery, watches, or eyewear, when the instructions in the data sheet are followed. The combination of sustainable materials, organic chemistry, and purpose-built functionality ensures high product quality while minimising environmental impact.

## EU DECLARATION OF CONFORMITY

In accordance with Regulation (EU) 2025/40 on packaging and packaging waste (PPWR)

### 1. Identification

Declaration no.: DoC-PPWR Bags

Date: 7th of July 2026

Version: 1.0

Scope: The packaging products and variants listed in the product overview/annex.

### 2. Manufacturer

Westpack A/S

Sletten 21

DK-7500 Holstebro, Denmark

This declaration is issued under the sole responsibility of the manufacturer.

### 3. PPWR Assessment and Declaration of Conformity

The packaging has been assessed in accordance with Article 10 of Regulation (EU) 2025/40. Any internal space is necessary for product accommodation, protection, positioning and presentation. No unnecessary packaging volume or empty space has been identified.

The stated recyclability percentage does not represent a PPWR recyclability grade (A, B or C). PPWR grading will be applied when the official EU methodology becomes applicable.

Westpack A/S hereby declares that the covered packaging has been assessed and found to comply with the relevant requirements of Regulation (EU) 2025/40, including requirements for material composition, restricted substances, recyclability, packaging minimisation, traceability and documentation, where these requirements are relevant to the packaging concerned.

### 4. Covered packaging

This declaration covers packaging products within the same packaging family, material types and compliance basis. The products are identified by product name, item number, product type, dimensions, weight and material composition in the product overview/annex.

### 5. Technical documentation

Conformity is supported by relevant technical documentation, including product data, material weights, supplier declarations, product declarations, recyclability assessment, chemical documentation and traceability information. The documentation is retained by Westpack A/S and made available upon request from relevant authorities.

### 6. Product overview / annex
